The defendant shall participate in an outpatient and/or inpatient drug treatment or detoxification program approved by the Probation Department. CAUSE

On April 13, 2005 the offender submitted urinalysis which tested positive for the presence of tetrahydrocannabinol (THC). When confronted with this positive result on May 3, 2005, the offender advised that the positive result was caused by Sustiva, a medication that he is prescribed.

The undersigned officer then spoke with a technician from Scientific Testing Laboratories. The technician advised that the sample was confirmed positive for cannabinoids, which could only be caused by the use of marijuana. During an interview on June 6, 2005 the offender disclosed the use of marijuana a few days prior to his sentencing, stating that he smoked the marijuana to help cope with the stress of his pending legal issues. We directed the offender to refrain from any additional drug use and suggested alternative methods to deal with stress. The offender was also registered in a random drug testing program. As reflected in the attached "Waiver of Hearing to Modify the Conditions of Probation", the offender has agreed to participate in a substance abuse treatment program.

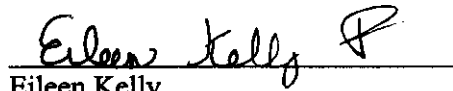

Based upon the offender's willingness to participate in treatment if needed, the Probation Department recommends that the Court modify the conditions of supervision to include substance abuse treatment.
